Miami Township Public Works

Proudly Serving the Public at 8580 Miamisburg Springboro Road

From Prior to 1937...

Through 2012

Transitioning to the Present & Future of Miami Township Public Works 10891 Wood Road

The New Public Works Facility was completed on July 19, 2012. The facility relocation project began back in 2008 with research and preliminary design. Public Works representatives performed site visits at several recently constructed public works facilities to gain valuable feedback in designing the most cost effective and efficient facility to serve the residents of Miami Township.
