

## Miami Township Tree Trimming Notice

Dear Miami Township resident:

Tree limbs in your area hanging over the roadway are striking school buses, refuse trucks, postal service vehicles, large passenger vehicles, snow plow trucks and emergency services equipment. To maintain roadway safety it is necessary to trim all trees extending vertically beyond the edge of the pavement in your plat. Weather permitting, this work will commence in January 2019 and extend through the winter months. All roadways in Miami Township are trimmed on a 3-5 year cycle.

**WE ARE NOT TREE TRIMMING EXPERTS.** Miami Township crews will be trimming trees to conform to road right-of-way specifications only. If you desire a more professional or aesthetic appearance, you may trim your own trees before January 1st, 2019. If you elect to trim your own trees or utilize the services of a professional, please contact the Miami Township Public Works once the work is complete to verify that all clearance specifications have been met.

The trimming specifications can be reviewed on the reverse side of this flyer. The Public Works Department will trim all trees in the right-of-way that are not previously trimmed, reported, and verified before January 2019.

Please feel free to call our office with any questions.

Miami Township Public Works

\* Please reference the reverse side of this flyer for an illustration of minimum and/or preferred standards for right of way trimming.
