4106.02 ARCHITECTURAL SIGN PACKAGE

It is recognized that large shopping center complexes have unique physical characteristics, which make the provision of standardized freestanding, wall, and other sign design standards impractical.

1. In order to promote public safety and a more efficient, comprehensive, and aesthetically pleasing collection of signs on large commercial properties, shopping centers in excess of 100,000 square feet may request approval of an architectural sign package. The architectural sign package shall be reviewed under the provisions of Article 6, Section 603 for architectural reviews.
2. The Zoning Commission may permit such modifications to the general standards contained within Article 41 as necessary to accommodate the purposes outlined above provided that:
 - a. Except for blade signs in pedestrian areas, signage that is specifically listed as a prohibited type of sign under this chapter is not permitted; and
 - b. The Zoning Commission may require that specific types of signs such as blade signs be used uniformly throughout all or a portion of a site in order to create a consistent architectural appearance; and
 - c. No approved sign package shall become effective until a signed affidavit from the property owner(s) acknowledging agreement with the approved standards is filed with Miami Township and recorded with said standards by the applicant with Montgomery County. The affidavit must also state that provisions will be made to inform all tenants or leaseholders of such standards and further acknowledging that all future owner(s) and tenants shall be provided a copy of said standards by the then current owner(s). Such standards shall include architectural design guidelines for each sign type to which each tenant shall be held. No sign package shall be approved without detailed standards for sign height, area, quantity, and permitted locations. The provision of several sign display models for different tenants may be permitted, provided each model details the previously noted items; and

Application

- d. Each sign package shall be reviewed upon its ability to provide for general conformance with the existing sign regulations while accommodating the functional requirements of a large shopping center complex with multiple private roads, pedestrian areas, and general traffic management issues; and
- e. Free standing sign heights should be limited, with preference given to the provision of a larger number of monument signs in lieu of larger pole-based signs; and
- f. Wall signs should be proportionate to the wall upon which they are placed and to other signage within the complex; and
- g. Quantities of wall signs should be limited to that required to provide a balanced architectural appearance to the building and other signage in the area; and
- h. Free standing sign quantities shall be limited to that required to provide for the display of information at driveway entrances or exits and other traffic management areas throughout the complex; and
- i. The Zoning Commission may utilize such information as deemed necessary, such as traffic engineering reports or reviews on sight distance or other hazards, in approving or denying the provision of free-standing round signs; and
- j. Upon approval of an architectural sign package, the property shall be bound to the requirements of the sign package and may no longer utilize the potentially less stringent standards of this resolution, except as specifically provided for in the approved sign package. The property owner(s) of record or Zoning Commission may, at any time, file an application to amend a sign package approval. Such hearing for amendment shall be set per the standards of Article 6, Section 603. The Zoning Commission may approve, deny or modify such request based upon the standards of this section for the original approval of a sign package. All amendments approved by the Zoning Commission shall be recorded with Montgomery County by the applicant initiating such request.
- k. Approved sign package standards shall be included as an appendix to the Miami Township Zoning Resolution.

I, the undersigned, have read and understand all the above information and have provided all the necessary materials, forms, and information and believe them to be true to the best of my knowledge. I further have further read section 4106.02 paragraph A, item 2c and agree to obtain a signed affidavit acknowledging responsibility and completion of recording all necessary documents related to this request with Montgomery County. I understand that my application will be considered and processed in accordance with the regulations set forth by the Miami Township Zoning Resolution. I understand that the materials provided within this document are subject to public record and will be considered in rendering a decision on this request. I further understand that additional information may be required by Miami Township Staff to further proceed with this hearing.

- § If the Board of Trustees ultimately approves the case, the change will become effective thirty (30) days from the date of approval. Final Development Plans and modifications to planned developments not involving a rezoning are effective immediately upon approval by the Board of Trustees.

GENERAL INFORMATION FOR APPLICANTS AND OWNERS

All **applicants and property owners** should review the latest comprehensive planning documents and the most current zoning resolution available as it pertains to the area proposed for rezoning or modification prior to submittal of an application.

All materials submitted as part of this application are **public record** and will be made available for review upon request of any interested party.

The application, and any other relevant information, may be **submitted to outside agencies and organizations, both public and private**, that the Staff, Zoning Commission, or Board of Trustees desire to have review said materials. These may include, but are not limited to, the Ohio Department of Transportation, Montgomery County, local school districts, and local utilities. This review in no way removes the applicant's responsibility to ensure compliance with the rules and/or regulations of any of these outside agencies or organizations.

By submitting this application, the applicant and property owners grant **permission to place public notice signs on the property and take photos**. Aerial photography of the site may also be utilized in reviewing an application.

Inaccurate or incomplete information provided with or within the application package may delay the processing of the application and/or delay any scheduled public hearings. The Zoning Commission and/or Board of Trustees may table the case due to missing or incomplete information.

Applicants are expected to attend all public hearings regarding the application, and a failure to appear could result in the postponement of action on the application, and final action will be left to the discretion of the Zoning Commission or Board of Trustees within the constraints of the Miami Township Zoning Resolution. You may send a representative on your behalf.

All owners of the property must sign and have notarized the property owner's affidavit as part of any application. Please print additional pages of this form if needed.
